Checkpoint 4 Goals

Outline

- Demonstrate the redesigned IABC website!

Primary Customer

- Designing a solution tailored for IABC Members

Other Users / Customers

- Improving experience for IABC Board members for website maintenance
- Improving experience for Companies using the IABC Job Board

Objectives of the Redesign

- Reduction of information on the various pages
- Streamline the navigation, and in the process, improve usability and functionality.
- Further improve overall experience when using the website

Themes and plugins

- For our theme we chose the Gutenberg Travel Blog theme
- For our plugins, we chose:
 - Accordion Blocks
 - Everest Forms
 - Smart Slider 3
 - Ultimate Addons for Gutenberg
 - WP Show Posts
 - Yoast Duplicate Post
- These plugins are free, frequently updated and well rated by other users!

WordPress demo now

Next Steps

- Integrating Payment With the Job Posting Form
- When a Job Posting is submitted, information on the Career Board is displayed automatically once approved
- Further discuss and improve community engagement features such as the Blog

Questions For You

- Are there any requirements that you had which we may have overlooked?
- What solidifies and confirms your belief in our design solution to lead you to implement this as your new website?
